SECTION 2: Summary and Certification

1. Summary of safety and effectiveness information (could be released to the public)

Substantial equivalence

Our blood pressure manometers No. Ri-San/Ri-Sana are substiantial equivalent to our blood pressure manometer Ri-Med. The models are the same regarding purpose and function.
Ri-Sana is exactly the same manometer as Ri-San, however, the cuff of Ri-Sana is with integrated chestpiece for self-measurement (same cuff as with our model Sanaphon N). Also these models are the same with regard to purpose and function.

Comparision checklist:

New models Ri-San / Ri-Sana	**Ri-Med / Sanphon N**
Intended use: To measure the blood pressure	Yes
Housing made of robust plastic	Yes
Bulb made of rubber (latexfree)	Yes
Same mechanism (manometer works)	Yes
Same cuffs available as Ri-San	Yes (as Ri-Med)
Same cuffs available as Ri-Sana	Yes (as Sanaphon N)
Faceplate from 0 to 300 mmHg	Yes
Same purpose (blood pressure meter)	Yes
Same technical function	Yes, there is a little difference in the air release valve: With Ri-San and Ri-Sana we have a finely tuned fingertip control air release valve, with Ri-med, we have a push botton hich automatically regulates the air release speed between 2 and 3 mmHg. The result of measurement is exactly the same. The handling is exactly the same (with both models the button must be pressed)
Variety of colors (no difference in fuction or design!)	One color
Nice ergonometry	Yes
No stop pin	Yes
Maximum error throughout range +/- 3 mmHg	Yes
Private labelling possible	yes

Re: K002954
Trade Name: Ri-San and Ri-Sana aneroid blood pressure meters
Regulatory Class: II (two)
Product Code: DXQ
Dated: September 16, 2000
Received: September 22, 2000

Dear Ms. Riester-Freudenmann:

We have reviewed your Section 510(k) notification of intent to market the device referenced above and we have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 895. A substantially equivalent determination assumes compliance with the Current Good Manufacturing Practice requirements, as set forth in the Quality System Regulation (QS) for Medical Devices: General regulation (21 CFR Part 820) and that, through periodic QS inspections, the Food and Drug Administration (FDA) will verify such assumptions. Failure to comply with the GMP regulation may result in regulatory action. In addition, FDA may publish further

announcements concerning your device in the Federal Register. Please note: this response to your premarket notification submission does not affect any obligation you might have under sections 531 through 542 of the Act for devices under the Electronic Product Radiation Control provisions, or other Federal laws or regulations.

This letter will allow you to begin marketing your device as described in your 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4648. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address "http://www.fda.gov/cdrh/dsma/dsmamain.html".

Sincerely yours,

for
